

## A and H fire class rated doors Windows - Glazed partitions

The company was established in 1954 and holds today a complete range of standard and special door solutions.

The factory in Horten manufactures light and heavy-duty doors as well as windows and glazed partitions for ships and offshore constructions.

The production capacity of the site is approx. 6.000 doors/year in a production area of 4.000 m<sup>2</sup> with 40 employees.

### HINGED DOORS - A and H fire class

In Baggerød door range you will find the most used door types.

Baggerød has doors in all the NORSOK classes up to H-120, light, medium and heavy duty.

Baggerød is especially proud of the pneumatic solutions for its doors. They are flexible, reliable and durable.

### OPTIONS (door type dependant):

- . NORSOK threshold solution
- . Jet fire resistance
- . Blast pressure resistance
- . Glazing and/or vision panel
- . Pneumatic or electrical operation
- . Panic bars
- . Kick out panel
- . Hose port
- . Extra locking features
- . Drop-down threshold (door-stopper)

### EXTRA LARGE DOORS

Baggerød can deliver large hinged and sliding doors in sizes up to 3000 x 4500 mm. It can also be supplied with access door integrated. The large doors can be equipped with pneumatic operation on the main door and on the access door.

### SLIDING DOORS - A-60 and H-120 fire class

Baggerød can produce sliding doors A-60 and H-120 fire rated, bolted or welded frame. Sliding doors can have manual, electrical or pneumatic operation.

The door can be delivered as weather-tight. NORSOK version available.

### WEATHER TIGHT / SPRAY TIGHT DOORS

Weather-tight and spray-tight doors can be produced in steel or aluminium.

### WINDOWS - B-30 to H-90 fire class

Baggerød has developed fire rated windows with fire class from B-30 to H-90 in various sizes.
