

Specialists in Marine Doors from CLASS B15 to A60

Quality, service, development and flexibility.

Momec, based in Bottnaryd (Sweden), has more than 50 years experience in making Marine doors. From the very beginning, shipdoors took a major part of the sales and Momec soon became a leading supplier of Marine Equipment to shipyards all over the world.

Momec developed a wide range of fully approved A and B class doors that became the trademark for shipdoors.

These doors meet all requirements for fire safety, sound reduction, thermal insulation and water tightness, whenever needed.

We continue to develop our doors to meet new demands from customers and safety authorities.

Today Momec can offer the full assortment of Marine doorsets, standard or custom made.
